B: True. She's nice and helps a lot.

(D) A: How's your drink?

B: Great! It's not too sweet and it looks beautiful!

C.

Believe it or not, dragons do exist. The famous Komodo dragon of Indonesia is the largest lizard in the world. It can grow up to three meters long. Komodo dragons are very smart, and they're good hunters. They prey on a wide kind of animals, like pigs, goats, and deer, and many smaller animals, even the young of their own species. To avoid becoming a meal themselves, Komodo dragons spend most of their time in trees. Komodo dragons are endangered; right now, there are only 6,000 in the world. Hopefully, the real-life dragons will never disappear.

exist 存在 lizard 蜥蜴 hunter 獵人 prey 捕食
wide 廣泛的 species 物種 avoid 避免
endangered 瀕危的 disappear 消失

8. Which is the best title for the reading?

- Indonesian Animals title 標題
- A Real-Life Dragon
- The Diet of the Komodo Dragon
- Why Komodo Dragon Are in Danger

9. What would Komodo dragons eat?

- Sharks
- Elephants
- Fruits and vegetables
- Baby Komodo dragons

10. When animals are endangered, _____.

- they are getting fewer
- they are getting smaller
- they stay in trees and have a rest
- hunters protect them from killing protect 保護

11. Which is NOT true?

- There are not many Komodo lizards in the world.
- There are no larger lizards than Komodo lizards.
- Komodo lizards eat a lot of smaller animals.
- Komodo lizards aren't smart.

【背面尚有試題，請繼續作答。P.3】

D.

Algae is a simple plant and can be very small. People can usually find it in water and other places, like rocks or trees. It plays an important role in the ecosystems in the world. Algae produces about 70% of the air for people and animals. It can help move a lot of CO2 away from the air.

According to **pigment**, there are three types of algae. The kinds of algae are green, brown, and red algae. We can find Green algae in fresh water. It uses photosynthesis to make its own food. It is also the ancestor to land plants. It may be very small, even a single cell. Brown algae grows in shallow water. This type of algae is the largest in size. Red algae is one of the very first living organisms on the earth.

📖 algae 藻類 ecosystem 生態系統 produce 產生 ancestor 祖先;原種 photosynthesis 光合作用 shallow 淺的 organism 生物

12. What is the writer’s purpose? 📖 purpose 目的

(A) To discuss different kinds of algae.

(B) To describe where algae is found.

(C) To list what color algae is.

(D) To show the age of algae.

13. What does **pigment** mean in the reading?

(A) size (B) shape (C) color (D) weight

14. What do we know about algae from the reading?

(A) Algae produces about 70% of CO2 from the air.

(B) Green algae is the very first land plant.

(C) Brown algae makes its own food through photosynthesis.

(D) Red algae is the largest in size of the three.

E.

Do you ever think about what will happen when you don’t have enough water to use in your everyday life? If we only have little water to use, we may have nothing to drink, plants may die, and animals may, too. Does it sound terrible? However, it’s now happening in some parts of the world.

When there hasn’t been enough water in one place for a long time, we call it a “drought”. People find that some small changes in the flow of wind, water, and temperature can have a great influence on the climate of some places. And when the change of the climate comes, it may lead to droughts. The rapidly changes of the climate may cause droughts, but what people do will make them worse, like cutting trees. Trees can protect the earth from the sun’s heat. The temperature will become higher than it was if we don’t

have trees. More and more people living in the north America are moving to the southeast of America. However, the habits of using water in life don’t change much. They may still take long showers and wash cars often like before.

The best way to solve the problem of droughts right now and in the future is to use water carefully. Let’s take action in our everyday life when we still have enough water to use. 📖 flow 流動 temperature 氣溫 influence 影響 climate 氣候 lead to 導致 habit 習慣 solve 解決

15. What **CAN’T** we do when droughts happen?

(A) Reuse the water to clean the toilet.

(B) Wash the clothes less often.

(C) Take a long shower every day.

(D) Reuse the water to wash cars. 📖 rapidly 迅速地

16. According to the reading, what may cause a drought?

(A) People move to the southeast from the north.

(B) People use the umbrella in the flow of water.

(C) Typhoons bring the flow of wind and water.

(D) Climate changes rapidly. 📖 deal with 處理

17. What can we do to deal with the problem of droughts?

(A) Walk to school or take a taxi to work more often.

(B) Use our own bags when doing shopping.

(C) Reuse water to clean the bathroom or water plants.

(D) Cut down trees to grow rice and make more food.

七、翻譯與填空
(每題 2 分，共 10%)

1. 籃子裡的這些小圓麵包聞起來好香喔。

2. 這灰色的蛇比那白色的重很多。

3.Fill in the blanks in the reading:

Hi, I’m Peter. Ten years ago, I was 3-1 (short) player on my school baseball team. Everyone else was much taller, faster and stronger than me. To make things worse, I always got 3-2 (few) points, so I felt sad. One day after practice, I decided to quit the team. However, when I opened my bag and got ready to go home, I found many cards in my bag. They were from my teammates. They wrote the cards to encourage me to believe in myself. I was so lucky to have these guys in my life, so I kept playing for my team. After that, I was the first one at practice every day, and I tried different ways to improve my skills. Now, I’m 3-3 (good) of all. I am very happy because my teammates are always there for me.

3-1 _____ 📖 encourage 鼓勵

3-2 _____

3-3 _____
